Institute

# Social Cohesion Hub

Invitations with further information will be sent out two weeks in advance. Information on the webinar's schedule is available on **#SoCoHub**, a platform for exchange on concepts, indicators, evidence and development projects related to social cohesion.

## What?

Social cohesion is what holds societies together, how we interact with each other and solve problems is particularly relevant for development. This webinar series creates a forum for discussion and building strong networks to foster social cohesion.

## Who?

Leading researchers, policymakers, and practitioners from national and international organisations, to discuss new insights on social cohesion and their implications for development policy.

## How?

This webinar, which will take place every three months, is open for everyone and takes one hour (half presentation, half discussion). Presenters introduce research and its policy relevance.
